 |

This fan-fiction article, **Elohim**, was written by [Adalwulf of Aedirn](#) and [Witcher190](#). Please do not edit this fiction without the writers' permission.

The **Elohim**, also known as the **Protas**, or the **Ancient Gods** are a [race](#) of higher dimensional beings that could be viewed as akin to absolute gods who dwell in the Omniverse. Following the disappearance of their king and the source of most of their power, most of the **Elohim** withdrew into focusing primarily on their duties through the use of proxies and sequestering themselves into worlds and creations of their own making. Few **Elohim** interact with mortals in the modern day. Though with the return of **The Source** just before the start of the 17th century the **Elohim** have begun to become active again though not directly with mortals.

# Physiology

It is hard to explain **Elohim** physiology as they are a race that can regularly use Polymorphy (aka shapeshifting) and can change their appearance, form, and gender at will. Each individual can look drastically different from the others, usually, their favored appearance is a matter of personal taste, more or less. Each **Elohim** with the exception of **Fanbris** had a soulmate created straight from their own soul at the time of their 'birth' who is directly tied to them, complementing their domain or specialty in some way.

# Racial Timeline

## Before the Creation of the verses (2,000,000,000,000 BR)

## Back in time immemorial (15,000,000,000 BR to 300,000,000 BR)

The Big Bang occurs and the primordial reality is born, from this reality will eventually emerge the multiverse and according to the most extravagant philosophers of The Continent, the omniverse with its different layers. Which is everything that exists, existed and will exist.

The god-like **Elohim** settle in a realm they call the **World of the Elohim**. # Technological Feats

## Aetheric Alchemy Forge

Also known as a Life Forge, this apparatus was used to create the species that would come to be known as the [Refiam](#). It was a cause of conflict with some members of the Grigori who began actively rebelling against the Elohim in a bid to become the masters of the Multiverse, this led to more or less the Elohim isolating themselves for several millennia from their creations.
